The image shows a web-based login interface for unified identity authentication. On the left, there is a photograph of the university's main gate. On the right, the '账号登录' (Account Login) section contains two input fields: '用户名' (Username) with a red prompt '请输入用户名' (Please enter username) and '密码' (Password) with a red prompt '请输入密码' (Please enter password). A '忘记密码?' (Forgot password?) link is positioned to the right of the password field. Below the fields, a '登录提示' (Login提示) section provides instructions: '新用户登录用户名为门户ID, 登录密码默认为身份证后六位(X大写)。建议登录后设置密码保护问题(设置方法)、绑定找回密码邮件(设置方法), 便于忘记密码时找回密码。' (For new users, the login username is the portal ID, and the login password is the last six digits of the ID card (X in uppercase). It is recommended to set a password protection question (with settings method), bind a password recovery email (with settings method), and so on, to facilitate password recovery when forgotten.) A blue '登录' (Login) button is located at the bottom right of the form.
